We're excited to have you joining us in the studio for our April preschool classes! Your class consists of video lessons, downloaded resources, and live meeting times. Please review your sawyer account for your scheduled live class times.

Please note, live meeting times are completely optional and designed for community connection and discussion time.

Our recommended video schedule is in the box on the left, but feel free to work through your material at your own pace!

Each class consists of:

A welcome message from Miss Allison with some art history or contemporary art to look at.

A warm-up art activity with one of our Orange Easel instructors

A story time with one of our Orange Easel instructors

A journal prompt

An open-end art activity lead by one of our Orange Easel instructors

A closing message from Miss Allison

We recommend that you complete your class videos/activities prior to your live class meeting time. We'll be using that time to color together, show our completed artwork, and be in the community!
